## About Enterprise

Enterprise is a national nonprofit that exists to make a good home possible for the millions of families without one. We support community development organizations on the ground, aggregate and invest capital for impact, advance housing policy at every level of government, and build and manage communities ourselves. Since 1982, we have invested \$72 billion and created 1 million homes across all 50 states, the District of Columbia, Puerto Rico and the U.S. Virgin Islands – all to make home and community places of pride, power and belonging.

Our [Faith-Based Development Initiative \(FBDI\)](#) provides houses of worship with the knowledge and tools to develop underutilized land into affordable homes and community facilities. In America, there is a severe shortage of affordable places to call home. It costs the U.S. economy \$2 trillion per year in lost wages and productivity, but hurts renters most, especially the 11 million households spending more than half of their paycheck on rent. The high cost of land and lack of available land in many jurisdictions is a barrier to the production of affordable housing and has contributed to this deficit of affordable housing options. Underutilized land and air rights owned/controlled by houses of worship is a potentially powerful tool for creating affordable homes in neighborhoods that need it most.

This development strategy is also valuable for the many houses of worship that are struggling with underutilized and aging facilities along with declining memberships, changing neighborhood demographics and/or changing priorities. Affordable housing development can enable a congregation or organization to grow their mission, energy and financial health while serving their congregations and communities in new/expanded ways.

While land owned by faith-based institutions is a powerful community development tool, faith leaders typically do not have experience or expertise in developing affordable housing. Organizations with a desire to transform their unused or underutilized property into affordable homes for individuals and families need a partner(s) with experience and expertise in affordable housing to make that process less complex and the results more powerful. These organizations need training, technical assistance, coaching and pre-development funding to navigate the development process and create more affordable homes and community impact structures.

## Overview

Enterprise Community Partners, Inc. (Enterprise) has initiated a Request for Qualifications (RFQ) process to secure consultants and coaches to provide support to clergy participating in Enterprise Faith-Based Development Initiative (FBDI) Cohorts. Eligible applicants must be current or retired clergy that served on the ministerial team of a house of worship that completed an affordable housing and/or mixed-use development project with a focus on serving low- and moderate-income residents.

Enterprise began its FBDI efforts in 2006 to assist houses of worship in developing affordable housing and/or community serving facilities on underdeveloped/underutilized land owned by houses of worship. In addition, the FBDI seeks to support equitable procurement opportunities for BIPOC vendors, strengthen neighborhood anchor institutions and build an Enterprise program while nurturing a national movement that includes but is much larger than Enterprise. More information on the Enterprise FBDI can be found here: [Faith-Based Development | Enterprise Community Partners](#)

## Description of Services

3. Provide a series of one-hour one-on-one coaching support sessions to senior clergy that are participants of FBDI Cohorts. 5 hours of counseling time is planned for each Cohort participant. A selected clergy coach would be paid for 8 hours per each engagement to allow for prep time and meetings with Enterprise.
4. Provide a summary write-up of key findings/takeaways from overall process, and suggestions for how to enhance future coaching efforts for Cohorts.

Over one year, this will support 8 hours per engagement, including 5 hours of counseling time with the House of Worship and 3 hours of preparation time for sessions and meetings with Enterprise. The total available budget for each House of Worship engagement for Maryland cohort participants will be \$2,000. Over up to two years, this will provide 10 hours per engagement, including 7 hours of counseling time with the House of Worship and 3 hours of preparation time for sessions and meetings with Enterprise.
